B. Coverage and Description of Laborers' Tunnel Work Covered by this Agreement.

This Agreement shall cover all work of construction, alteration, repair or demolition of all tunnels, shafts, raises, subways, and all underground excavations including lining of same (Open cut work shall be excluded from this Agreement except as follows: Where open cut work is covered over or decked with wood, steel or other substitute material and workers are required to work under such cover, they shall be paid in accordance with the classifications of this Agreement for all excavation, cutting and placing, lagging and stud gun work.), which falls within the rightful jurisdiction of the Laborers' International Union of North America. Without limiting the scope of the work covered hereby it is agreed that miner's work shall include, but not be limited to the construction, laying and maintenance of all railroad track in subways and tunnels; all mining work including the manning, running and/or handling of all boring equipment, laser beams, mole machines, shields and all drilling, regardless of type or method used for work covered by this Agreement, sharpening of bits, steel nippers, dumpmen (power or manual), dry housemen, chucktenders, air tuggers, all conveyors, kempner pneumatic placer and all similar type equipment, all rock bolting and placing of rock restraining wire, setting all steel and wood supports, jacking of pipe, drilling, loading and shooting, handling of all powder, including splitting and making primers; all timbering, retimbering, whether wood or steel; all mucking and dumping; cable tenders, swamper/brakemen on muck trains and timber trains; handling, installing and extending all water, air and vent lines, manning of cherry pickers while mucking; handling sponge pumps in wet headings; all caulking and guns, all concrete work, including shotcrete (or similar type), gunite and grouting, dumping of agitators; raising, setting and moving of forms; handling of rods and other materials for use in reinforced concrete; stripping all forms and all cleanup work; all concrete finishing; running of grout pumps and screeding of concrete.

This Agreement shall also cover miner's work on that part of the open cut excavation two diameters in front of the portal face, two diameters in back of the portal face, one diameter above the arch of the tunnel, and four diameters on each side of the centerline of the tunnel where, because of the nature of the conditions encountered, it is necessary to employ special techniques used in tunnel work in order to secure the portal area preparatory to commencing underground operations. Concrete operations covered by this Agreement are those which start at the tunnel portals or at the collars of the shafts, and are carried out underground. (Diameter as used above is the specified excavated diameter of the tunnel.)

Laborers' work on the construction of structures such as, but not limited to, intake or outlet structures, power houses, and penstocks outside the portal face shall be outside work, though they may lie within the area defined above, and shall not be covered by the Tunnel Agreement.

The words, "alteration, repair or demolition of all tunnels" as used in the first paragraph shall apply only to miner's work on the support of, the lining of, or the structure of the tunnel itself, but not to Laborers' work on mechanical or electrical facilities, road paving (excluding inverts), tile work, or other work within the tunnel not done with tunneling methods and equipment.

Swampers/Brakemen on moving trains shall be employees under this Agreement.

All classifications listed in this Agreement which are not listed under this Section shall be included in the coverage and description of work just as though incorporated in full in this Section.

All work in connection with the operation of such equipment that is necessary to and incidental to carry out the work of the Laborer.

Any Employer not signatory to both the Laborers Master Tunnel Agreement and Laborers' Master Labor Agreement shall agree that whenever work is performed which is covered by the terms of the Laborers' Master Labor Agreement for the 46 Northern California Counties, the provisions of that Agreement shall be fully applicable to and binding upon the Individual Employer.
